Designing Here/Now

A global selection of objects, concepts and spaces for the future

Allan Chochinov, Eric Ludlum

An ambitious global compendium of the most thoughtful and innovative design objects invented or produced in the past five years, compiled by experts at Core 77

It is difficult to keep pace with the most relevant design innovations, but Core 77 has been presenting the design world's best work since 1995. Considered by some to be one of the very first online magazines, Core 77 works with many of the leading design agencies and design-led companies, such as Apple, Nike, Philips, DuPont, Braun, and many others. For the past several years, it has hosted a unique set of design awards, juried by the world's design experts, which has attracted a dazzling spectrum of international practices.

From consumer products to speculative ventures, from transportation to visual communication, from design writing to food design, the entrants and winners of the Core77 Design Awards capture the spirit and preoccupations of the design industry, and the best work chosen by panels of jury members that include design luminaries from the U.S., Europe, India, and China. *Designing Here/Now* includes over 500 objects at the leading edge of all fields of design, presented in topical categories and selected by the world's most influential critics, curators, and educators.

Contributors

Allan Chochinov

Edited By

Allan Chochinov is a founding partner and editor-in-chief of Core77. He is the chair and co-founder of the MFA in Products of Design Program at New York's School of Visual Arts.

Eric Ludlum
